

Protective plugs aluminium

Item description/product images

Description

Material:
Aluminium.

Version:
Bright.

Note:

Use these plugs to seal grid holes and protect them from swarf and dirt. Leave the protection plugs in holes not in use! Aluminium plugs are used when aggressive coolants are used or when cutting dry.

Advantages:

The sealing washers (Form B and C) prevent coolant getting into the grid holes.

On request:

Different colours for differentiation on base units with grid holes.

Drawing reference:

Form A: with hex socket, without O-ring

Form B: with hex socket, with O-ring

Form C: with slot, with O-ring
